

It's Poor Economy

Buying feed, just because it's old, musty and cheap, is like sliding down from an eight story window on a straw rope. You're taking desperate chances.

When you buy

food for your own consumption you are careful to get the very best money can purchase, for health's sake. The same argument stands good with your stock.

SOIL.—A deep, mellow and well drained soil is necessary. Good groves can be made on quite sandy land if attention is paid to fertilization and the growing of nitrogen-gathering crops. Soils poor in lime produce fruits with little aroma and thick parings, therefore, on such soils lime should be used. Spread mineral fertilizers broadcast at the beginning of the rainy season and cover lightly. For young and well fertilized plantations, beans, corn, etc., may be planted between rows.

FERTILIZATION.—Do not apply fresh manure. Good compost is preferred. If the growth of wood is poor and the leaves yellow, Chili saltpetre may be spread after the rainy season.

Health Officers Speak.

City, State and National Authorities report the Royal Baking Powder in every way Superior to all others.

STATE CHEMIST, CALIFORNIA: The ROYAL fulfils all the requirements. Our tests show it has greater leavening power than any other.

STATE CHEMIST, WASHINGTON: There is no question but the ROYAL is the strongest, purest and most wholesome baking powder in the market.

U. S. GOV'T FOOD REPORT: ROYAL BAKING POWDER is shown a pure cream of tartar powder, highest of all in leavening strength.

CANADIAN OFFICIAL TESTS: ROYAL BAKING POWDER is commended as of highest excellence, and shown to be greatest of all in leavening strength.

SAN FRANCISCO BOARD OF HEALTH: We cordially approve and recommend the ROYAL BAKING POWDER. It is absolutely pure and healthful, composed of the best ingredients, of the highest strength and character.

BOARD OF HEALTH, SEATTLE, WASHINGTON: Finding in analysis that it is entirely free from any adulteration, we heartily recommend the ROYAL BAKING POWDER for its great strength, purity and wholesomeness.

BOARD OF HEALTH, TACOMA, WASHINGTON: In our judgment the ROYAL is the best and strongest baking powder before the public.

BOARD OF HEALTH, SPOKANE: Certainly there is no baking powder known to us equal to the ROYAL.

DR. BINSWANGER, UNIVERSITY OF OREGON: It is also my opinion that there exists no purer, better or stronger baking powder than the ROYAL. I confidently recommend it.

Do not permit the slanderous stories of interested parties to influence you in using any other than The Best, The Royal.

"T'WAS A GOOD GAME.

The Regiments came out victorious in Saturday's game of base ball, the score being 6 to 4. The St. Louis College Club was in good form, but lost the day through errors. At the end of the fifth inning the College lads had scored four runs, leading their opponents one point. It was in the seventh inning that the Regiments added three more tallies to their score. The St. Louis team was shut out after the fifth inning.

Captain Gorman of the Regiment made a three-bagger. Luahiwa of the

same club muffed several balls sent into his territory. He redeemed himself at the bat.

This was the best game of ball exhibited this season.

the expense. The boat has been allowed to go on with a \$10,000 bottomry bond on her. It may be a difficult matter for the Government to realize anything from this bond. Then the Executive invites the Council of State to become a party to a transaction for which it would be held responsible. In my opinion the law provided the means for caring for the expenses of quarantining the immigrants, and no other course should be pursued by the Executive until the one laid down by the Constitution has been fully carried out. The quarantine bills should be paid, but not in the manner the Executive has asked the Council to pay them."

Another Councillor, whose name is omitted for good reasons, said that if the Executive had ordered the Health Department to the balance of its regular appropriation, which amounts to a little over \$2,000, in paying the expenses of the quarantine as far as it would go, and then applied to the Council for an appropriation to carry on the work of the Health Department he believed that an emergency would have existed which could properly have been brought before the Council of State.

Several other Councillors spoke their minds quite freely on the subject. But as they merely coincided with those given above, they were not published. The Council seems to be unanimous in its position.
